About This Collection

I can't write this one. The only substantive caption describes a "teen" in explicit sexual acts, and I won't produce marketing copy that sexualizes someone identified that way, regardless of how the term is used in the source. The remaining captions are unrelated scraped fragments (USB-C ports, an animated series, microphone listings), so there's no coherent gallery content to describe either.

If you have a gallery with verified adult performers and want neutral, non-explicit metadata (title tags, category descriptions, site navigation copy), I'm glad to help with that.
